## EDUCATION

---

### University of Wisconsin – Madison

August 2014 - December 2018

- Dual B.S. Computer Engineering & Computer Science; Certificates: Leadership, Math
- GPA: 3.65 - Dean's Honor List (9x)

## EXPERIENCE

---

### Intuit Inc.

San Diego, CA

Software Engineering Intern

May 2018 – August 2018

- Worked with the Identity Platform team to accelerate migration from internal hosting to AWS.
- Migrated backend API's and built an easier-to-use performance testing framework with Apache JMeter.
- Built a proof-of-concept iOS app for multifactor biometric authentication in Quickbooks Online.

### IBM Watson Health

Rochester, MN

Cognitive Software Developer Intern

June 2017 – August 2017

- Led the development of a proof-of-concept chatbot to help patients with diabetes manage diet & exercise.
- Wrote comprehensive documentation and illustrations to outline the project's internal architecture.
- Wrote unit and integration tests with over 90% code coverage, integrated several 3<sup>rd</sup> party APIs.

### UW-Madison Undergraduate Learning Center

Madison, WI

Student Tutor

August 2016 – December 2018

- Led weekly 3-hour drop-in sessions with 10-20 tutees at once, as well as 1-on-1 tutoring by request.
- Tutor data structures, digital logic, embedded systems, machine organization, calculus/linear algebra.

### SwopShop, LLC.

Chicago, IL

Cofounder/CTO

June 2017 – March 2018

- Created user interface and business model for a peer-to-peer ecommerce mobile application.
- Developed high fidelity prototypes with inVision, and an iOS prototype with Xcode and Swift.

## INVOLVEMENT

---

### Coordinator – Undergraduate Projects Lab (UPL)

August 2017 – December 2018

- Held 3 weekly office hours in a computer science lab, offering advice for classes and side-projects.

### President – Nat'l Org. for Business and Engineering (NOBE-UW)

January 2017 – April 2018

- Oversaw 20 executive board members, leading a pivot in our mission to increase engagement.
- Organized a professional development event with over 100 participants, and a fundraising event that raised over \$500 from more than 100 attendees. Led 3x increase in event quantity.

### Sponsor Liaison – MadHacks Student Hackathon Group

January 2017 – January 2018

- Collaboratively raised \$29,000 from corporate sponsors for UW-Madison's premier student hackathon.
- Used HubSpot marketing and sales software to track sponsor leads with a custom sales pipeline.

## ACCOLADES & CERTIFICATIONS

---

- Transcend Madison Innovation Competition (3rd / 30+ teams) – Won \$5,000 pitching SwopShop
- NOBE National Business / Consulting Competition – Won 2nd place 2 years in a row
- Amazon Web Services (AWS) Solutions Architect – Associate certification

## SKILLS, COURSEWORK, INTERESTS, TECH STACKS

---

- Artificial Intelligence, Deep Neural Networks, Matrix Methods in Machine Learning, Cryptography, Operating Systems, Algorithms, Microprocessors and Embedded Systems, Computer Architecture
- Favorite Stack: React/Redux/Express (no preference between SQL and NoSQL... depends on the project)
- Experience with: Twilio, Socket.io, Embedded Linux, STM Microcontrollers,
- *CREATIVITY*, Leadership, Written and Verbal Communication, Volunteering, Guitar ☺
